Anti-ligature Disclaimer
Anti-ligature Disclaimer The anti-ligature design characteristics of this product are not intended to replace or substitute the need for necessary supervision of those who may be at risk, or for other necessary protective measures to be taken in the specific circumstances of usage. Kingsway Group, Inc. does not offer any products for sale as being 'ligature-free' and will not be liable for any claims arising from ligature attachment on its products. It is the customer's responsibility to ensure that products purchased and installed are suitable for the environments they are installed in.

The KG07 manual liquid soap dispenser has a refillable cartridge and allows for the safe dispensing of liquid soap. The unit dispenses soap when the button is pressed on the front of the dispenser. It is made from high-grade stainless steel and is anti-ligature by design. Constructed of a secure outer casing with cam-lock operation to allow staff to lower inner cassette for refill. The unit is supplied with a standard key and security screws for installation.

Installation description

- Mark out the location of the dispenser on the wall, making sure to allow room for the inner cassette when unlocked for refill.
- Drill holes for screws provided, allowing for anchors to suit wall construction type.
- Attach unit securely to the wall, additional tamper proof caulking can be applied around outer flange.

Operation and Maintenance

Operation
To fill the dispenser support inner cassette while unlocking and allow the cassette to slide down. Refill the soap cartridge with liquid soap. Slide the inner cassette into closed position and secure with lock

Maintainance
Periodically check lock for smooth function and lubricate when necessary with a dry graphite lubricant.

Cleaning
Should be cleaned as part of regular schedule using standard detergents or disinfectants, avoid acidic cleaners.

Guarantee

5 Year Guarantee*
*For faulty manufacture and not for damage

Architectural Specification
Anti-ligature surface mounted manual liquid soap dispenser with sloped top, key lock and security screws. Inner cassette to drop down to allow refilling and have sloped internal slot to prevent ligature attachment or wedging.

This product is refillable and requires soap to be purchased separately.
