

# SUICIDE REDUCTION DOOR (SRD) - 2008

## Installation Instructions

- 1) Remove existing door & hinges
- 2) Determine what side the SRD door hinge should be placed Note: door should swing outward into bedroom
- 3) Mark a line on the door frame at least 3 inches from the floor
- 4) Mark the center of door frame using a ruler and level so that the line is plum
- 5) Attach hinge to center of door frame using self-tapping screws.
- 6) Verify panel drops at 5-8 lbs of weight

← Door frame

7) Final step; install 6 inch rubber gasket piece on door frame at apex

← Door must be position to swing out into the room not into the bathroom.

Bottom of door at least 3" off the bottom
