Flotronic Shower Pan — FLOT3636

36” x 36” Shower Pan

Dimensions	Material	Technical	Barrier Free
36” x 36” x 5 1/2”	Anti-microbial Solid Surface	Allows for 3” strainer	not compliant

Material and Contruction

The shower pan is made from anti-microbial solid surface. AquaDesign's solid surface is a composite material of acrylic polyester polymer resins and aluminum trihydrate fillers. The material is resistant to stains and burns and complies with ANSI Z124.3. The shower pan is available in 11 colors.

The shower includes a slip resistant textured pattern floor. The shower pan includes an integral water dam. The pan has a minimum of ¼” per foot slope. The slope is specifically designed to slope away from the shower entrance.

Maintenance and Cleaning

Stubborn stains and superficial scratches can be cleaned with an abrasive cleaner and a wet sponge. You can also use a green Scotch Brite® pad. For surface staining soapy water or ammonia based cleansers are recommended.

Anti-ligature Drain

As an option the shower pan can be supplied with an anti-ligature drain. The drain can be supplied with bushing for installation on drain bodies by other.
