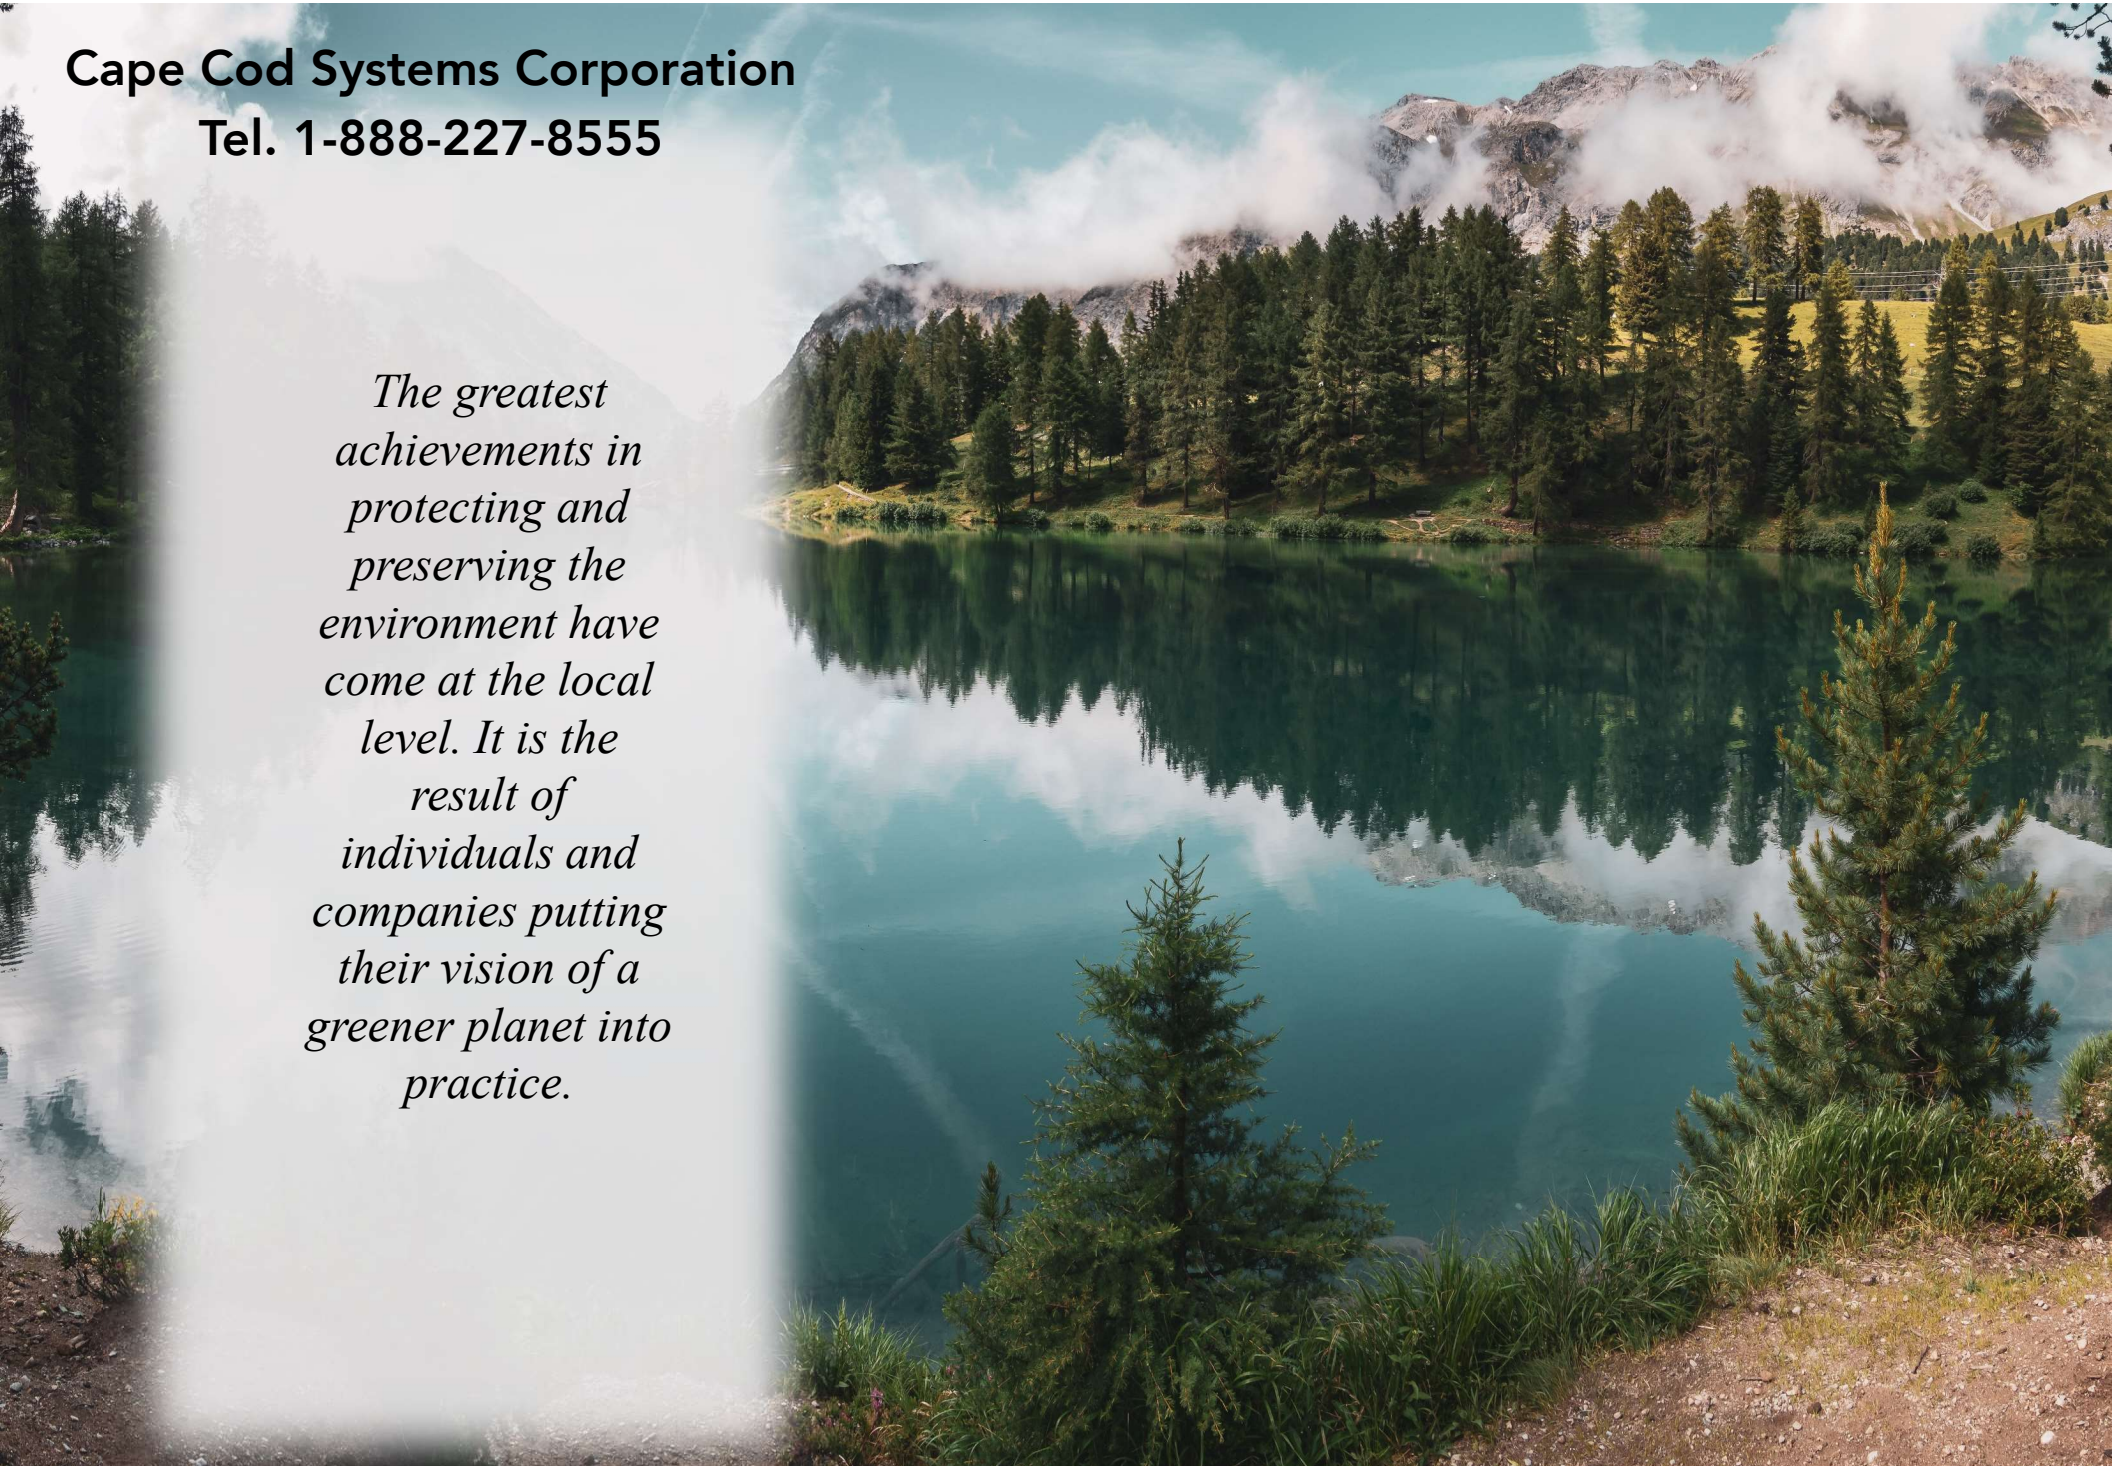
MODUFORM



Cape Cod Systems Corporation
Tel. 1-888-227-8555

The greatest achievements in protecting and preserving the environment have come at the local level. It is the result of individuals and companies putting their vision of a greener planet into practice.

THE MODUV DIFFERENCE

- High-Intensity Lamps are In-Line for Immediate Curing
- ModuV Sealer is Cured and In-Line Sanded for Durability and Rich Looking Appearance
- Curing Permanently Bonds Resin to the Part

- Conveyor Fed with Roll-On Applicators
- 100% of ModuV Resin is Applied to Part
- No Waste
- 99.9% VOC Free

NOTE: Conventional wood finishes such as urethanes, varnishes and lacquers are about 90% solvent based and require air drying. Therefore, approximately 90% of the finish evaporates into the atmosphere meaning only about 10% stays on the part. This makes it far less durable for you and much more harmful to the environment!

- Rolling Applicators Apply ModuV Resin Directly on to Part
- Rubberized Applicators Apply ModuV Sealer and ModuV Top-Coat Directly on Part – No Waste
- 100% Transfer Rate Allows ModuV to be upwards of 250% More Durable

- Resists Everyday Abrasions from Books, Paper & Writing Instruments
- Repels Most Food & Beverage Stains
- Prevents Discoloration from Strong Light & Temperature Variation
- Tough Enough to Withstand Harsh Cleaning Solvents - Even Bleach & Nail Polish Remover
- Maintains its Luster After Years of Use

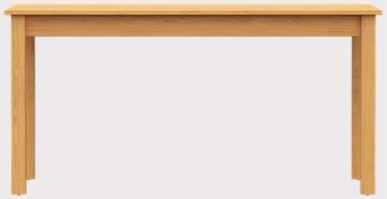
MODUFORM

ModuV: Flat Line and Roll Coated Finish

Being environmentally responsible does not mean compromising durability, healthier indoor air quality or the ability to fight against bloodborne pathogens, viruses or disease. You can have it all…

ModuForm offers a broad array of solid red oak and red oak veneer furniture that is sealed, inside and out, with our specially formulated ModuV:

- Specially formulated, 100% resin sealer and top-coat.
- Non-reactive chemistry.
- Hardened and cured under UV lamps.
- No spraying and no waste.
- 100% of the resin is transferred from our roll coat applicators directly on to the part.
- Utilizes the most durable, easiest to clean and environmentally friendly finishing process available.
- Use bleach-based or other commercial detergents for disinfecting, cleaning & sanitizing.
- MAS Certified Green for Healthier Indoor Air Quality.



MODUFORM

ModuV

Our Commitment to a Higher Level of Environmental Responsibility.

"The spirit of activism, creativity and ingenuity that drew attention to environmental issues four decades ago remains a force in our corporate philosophy. ModuForm is committed to displaying the initiative and concern that makes our world a better place."

William L. Weissman
