Optional Floor Anchoring Kit
Easily Remove for Cleaning

#450-AN-KT1
lock not provided

In circumstances where seclusion or restraint become necessary, Moduform’s seclusion beds have been designed with consideration for both patient and staff safety. Beds are engineered to comply with Life Safety Codes, withstand constant heavy-use and severe handling, prevent serious injury and be easily cleaned and maintained to help in the fight of harmful bacteria and bloodborne pathogens.

There are:

- No Frames
- No Springs
- No Seams
- No Puddling of Material
- No Hard Surfaces

The union of the one-piece, integral shaped high-density foam core fused to the 200mil polyvinyl skin enables each piece to meet the needs of uncompromising environments. Impervious to fluids, the seamless, pick and puncture resistant polyvinyl skin is mechanically fastened and gasketed to a rotationally molded, high-impact polyethylene base. Anchoring kits can be ordered that allow for maintainers to quickly detach the unit for cleaning. Secure 450-11 beds feature 10 restraint rings per bed. Weighing more than 200 pounds, it’s simple, durable, dependable and safe design make it the leader seclusion room solutions.
