Anti-ligature Disclaimer

Anti-ligature Disclaimer The anti-ligature design characteristics of this product are not intended to replace or substitute the need for necessary supervision of those who may be at risk, or for other necessary protective measures to be taken in the specific circumstances of usage. Kingsway Group, Inc. does not offer any products for sale as being "ligature-free" and will not be liable for any claims arising from ligature attachment on its products. It is the customer's responsibility to ensure that products purchased and installed are suitable for the environments they are installed in.

The KG18 manual recessed liquid soap dispenser is designed to be compatible with GOJO LTX 1200ML refill cartridges. The unit dispenses soap when the button is pressed on the bottom of the dispenser. It is made from high-grade stainless steel and is anti-ligature by design. Constructed of a secure metal outer casing with secure key lock to allow front to open outwards for refill. The unit is supplied with a standard key and security screws for installation

Installation description

- Mark out the location of the dispenser on the wall,
- Drill holes for screws provided, allowing for anchors to suit wall construction type.
- Attach unit securely to the wall, additional tamper proof caulking can be applied around the outer flange

Operation and Maintenance

Operation

Unlock front flap and open outwards. Replace the empty cartridge. Return the front flap to the closed position and secure with lock.

Maintainance

Periodically check lock for smooth function and lubricate when necessary with a dry graphite lubricant.

Cleaning

Should be cleaned as part of regular schedule using standard detergents or disinfectants, avoid acidic cleaners.

Guarantee

5 Year Guarantee*

*For faulty manufacture and not for damage
