

KG03.4 Toilet Roll Holder for 4-in. Wide Rolls

Product datasheet

CAPE COD SYSTEMS CORPORATION
TEL. 1-888-227-8555

The KG03.4 surface mounted dispenser allows for the safe dispensing of toilet rolls. It is made from high-grade stainless steel and is ligature resistant by design. The unit is supplied with security screws for installation

Installation description

- Mark out the location of the dispenser on the wall, making sure to adhere to applicable regulations, such as ADA.
- Drill holes for screws provided, allowing for anchors to suit wall construction type. Blocking is recommended
- Attach unit securely to the wall, additional tamper proof caulking can be applied around outer flange.

Operation and Maintenance

Operation

Place a standard toilet roll so that it is locked into both dimples allowing the roll to rotate. Roll must have a cardboard core and be 4-in wide.

Maintenance

Periodically check for damage and secure mounting, repair as needed.

Cleaning

Should be cleaned as part of regular schedule using standard detergents or disinfectants, avoid acidic cleaners.

Guarantee

5 Year Guarantee*

*For faulty manufacture and not for damage

KG03.4 Ligature resistant surface mounted toilet roll dispenser with security screws, designed with sloped top to prevent ligature attachment or wedging.

Anti-ligature Disclaimer

Anti-ligature Disclaimer The anti-ligature design characteristics of this product are not intended to replace or substitute the need for necessary supervision of those who may be at risk, or for other necessary protective measures to be taken in the specific circumstances of usage. Kingsway Group, Inc. does not offer any products for sale as being 'ligature-free' and will not be liable for any claims arising from ligature attachment on its products. It is the customer's responsibility to ensure that products purchased and installed are suitable for the environments they are installed in.
